

Ahnaf Ahmad

Jamaica, NY 11432 | (347)-744-5781 | ahrmada95@gmail.com

EDUCATION

Hunter College

Bachelor of Arts in Computer Science

GPA: 3.5/4.0

New York, NY

05/2020

RELATED COURSEWORK

Software Analysis and Design

- Principles of object orientated programming by analyzing existing software and techniques
- Efficient algorithm design and logic analysis
- Completed projects to implement learned concepts and skills, evaluated based on standards of the current industry

Computer Architecture

- Studied and analyzed circuit design
- Basic Hardware Decoding Language programming

WORK EXPERIENCE

Marigold Health

Data Language Analyst Intern

09/2018 – Present

- Collected data sets and filtered for appropriate information.
- Assigned tags to data sets for use in AI development.
- Observed AI behavior to confirm that learning process and neural network are operating at expected
- Helped create an ecosystem where the AI was utilized to detect suicidal tendencies in mental health patients and prevent deaths

PROJECTS

scrmWord

- Text-based game written in C++, where the user guesses scrambled words and has the ability to use life lines to prolong game-state.
- Implemented automated error checking of user inputs and game-state, as well as the option for save files.

SKILLS, ACTIVITIES & INTERESTS

Computer Skills: Proficient in Photoshop CS6, Song Vegas, and Paint.NET. Basic knowledge of C++

Activities: Novel reading, literary composition, model building, and game design in C++

Languages: Conversational Bengali
